

NTT DATA Channel Portal (NCP)

Enhancing the Insurance Customer and Producer Experience

Achieve:

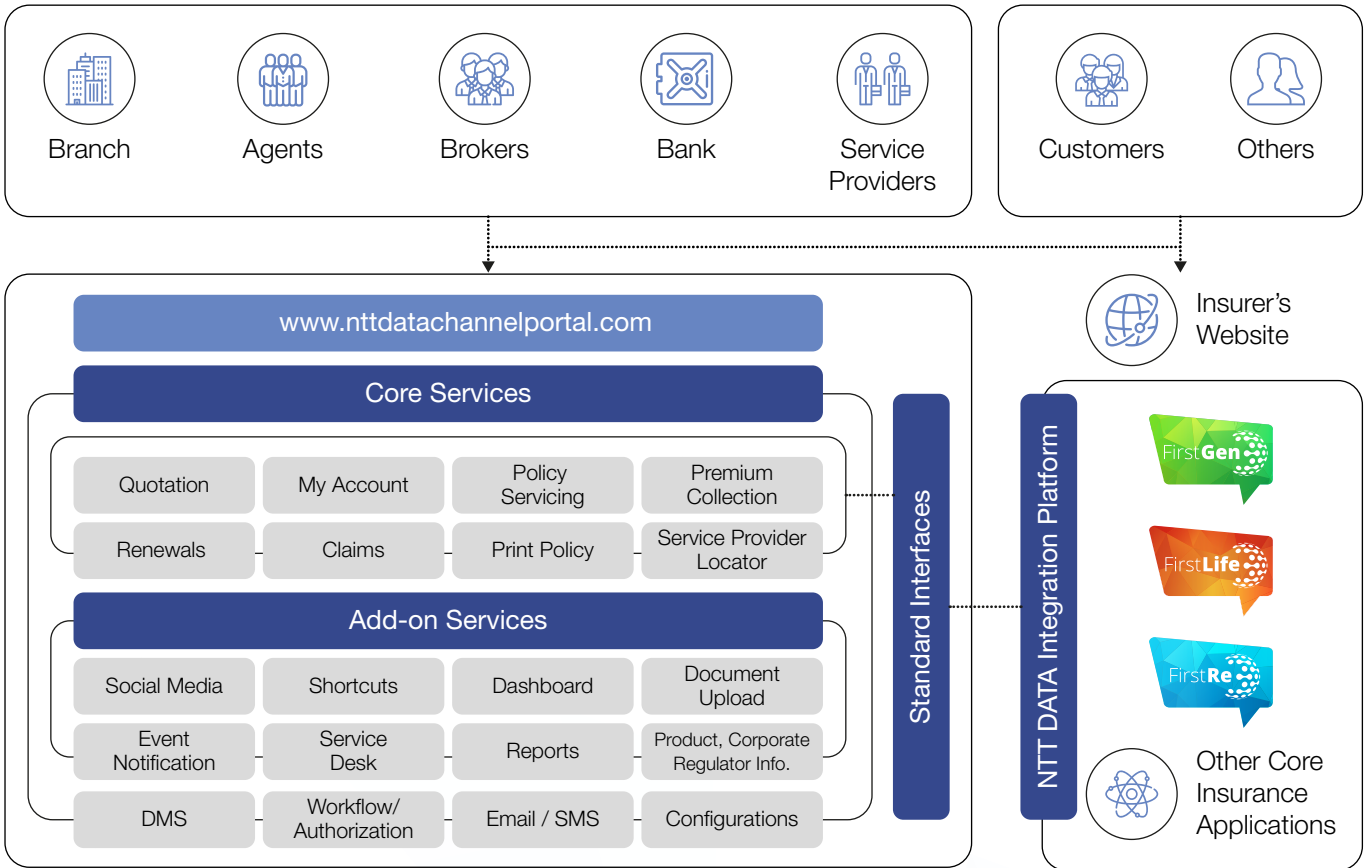

The gateway to superior customer experiences

In an ever changing insurance industry landscape, only insurers who can provide a superior customer experience compared to their competitors can survive and progress.

NCP solution is designed to address the needs of insurers looking to enhance their distribution service capabilities and offer superior experience to their customers and producers. NCP is designed to serve the needs and provide superior experience to end customers, agents, brokers, affinity and white-label partners, as well as to enable the sales & marketing staff of the insurer to better manage and service these various channels.

NCP is a multi-device application, accessible through desktops and various mobile devices. It is designed to easily integrate to any downstream commercial or legacy core insurance application to provide an array of customer servicing facilities across the quotation, policy servicing, claims, billing and other key business processes.
